

It has come to my attention that KLOVE might be bumped from the airwaves with the implementation of LPFM over the current FM translator service. To lose KLOVE because of this would be devastating to many people. KLOVE is one of the only stations that I can allow my children to listen to without fear of what they might be hearing. Other stations offer rude and crude broadcasting without any regard that their audience is an influential teen or preteen. I also find out about many of the wholesome activities that are going on around are area through KLOVE. Other stations will not broadcast local events without it being advertising and many of these events cannot afford that. The public service announcements provided by KLOVE are invaluable. Please make sure that KLOVE will not lose it's broadcast capabilities through this proposed change. Support good morals instead of taking them off the air. Thank you.
